

2.4 An Epitome of Courage

Warming Up!

Chit-Chat

***A Strange Truth - 'Handicapped are those who refuse to take up challenges, even with all their senses and physiology in perfect condition.' Understand and discuss the above truth.**

Ans:

Examples of inspiring people who are inspite of their handicapped condition.

Wilma Rudolph - Won running race though she had scarlet fever.

Michael Faraday - become a successful scientist even though he was suffering from speech defect.

David Hartman - became a successful doctor inspite of his blindness.

How can you encourage such people to change and become confident? Discuss at least 4 to 5 ways you can do the above.

Ans:

***Create awareness among them about their natural talents and skills.**

***Tell them inspiring and motivating stories of handicapped people.**

***Tell them some skills and techniques to overcome their problems.**

***Inform them about medical treatment according to their defects.**

2. Read the beginning and complete the story in your own words:

Ans: Brilliant Sumit

Sumit, the son of a shoe maker was a highly intelligent student in municipal school. His maths teacher called him 'Einstein', for he was brilliant in maths. He loved maths. Sumit wanted to study further S.S.C. However, he suffered from polio and it was an end of his education. It was a bolt from the blue for him. There was no way before him accepting this quirk of fate. Sumit had already registered his application for S.S.C. examination. He was worried about facing S.S.C. examination. But the principal's timely help changed the life of Sumit. Sumit was allowed to keep a writer for him during examination. It was a hope of ray for him. He completed his examination with confidence. When the results were declared, Sunlit was the first rank holder in his district. Sumit's joy knew no bounds.

The school trust and staff helped him to get best medical treatment. He was admitted in a well-known hospital. He was there for a month. He got the best treatment. He was cured about fifty percent. He hoped to continue his higher education. He joined the prestigious college. He passed his H.S.C. examination with excellent marks. Then he joined Degree college. He selected Mathematics as a principle subject. Then he completed post-graduation in Mathematics at the prestigious university. He achieved university gold medal in Mathematics. Then he completed his Ph.D. He became a well-known mathematician. In this way, Sumit overcame his physical disability and completed his dream. So, we should complete our dream by working hard.
