Date: 17th June, 2022.

Dear friend Raj,

How are you? I received your mail. I became very happy to know that you are well and good. I am writing this letter for a special reason.

Do you know that we have so many friends but trees are our best friend? It not only gives us fruits and shadow but it provides us oxygen. Without oxygen we cannot survive. Unfortunately day by day people are cutting trees.

Today the time has come that we must take action and protect trees, otherwise human life on this planet will be endanger. Due to the cutting of trees, there is a deforestation and global warming. I think, each and every family must plant one tree and take care of it till its full growth. From today, we all friends will begin a campaign of 'save trees and save human life' on this earth.

I hope you may understood my feelings regarding importance of saving trees and our Environment.

Give my best regards to your mummy daddy. Write me soon. I am waiting for your reply.

Yours loving,

Ravi.
