Hobbies play an important part in our life. They keep us busy in our spare hours and make life happy. They make us forget our worries and give us inspiration. They make life interesting and pleasant. They give us energy and teach us the dignity of labor. All hobbies are useful in one way or the other. But the one I like most is gardening. I have recently developed a taste for it. It is both pleasant and economical. I have always had a love for nature. But I have never before felt the real joy they afford to the human mind. It is only now that I learn what store of knowledge they have for us.
