- (b) **If we don't put anything in**, we can't get anything out
- (c) Life is something like **a trumpet**.
- (d) **To reduce weight** we know how to go about it.

Time-bound: Establish time parameters around each goal, as it will help increase focus and accountability. To reduce weight we know how to go about it. But without consistent time - bound action, it never becomes a reality. It may be exercise, diet and stress-free thoughts. All these have to be practised and implemented without hesitation, doubt or indifference, but within a deadline.

Visions, wishes, intentions and dreams are all valuable. They spark off imagination and encourage us to define where we want to reach. In order to get there, however, we need to bring life images, down to earth and plan to execute our strategies. The quality and quantity of energy we put forth, directly impact the results. Life is something like a trumpet. If we don't put anything in, we can't get anything out.

Success is a walk in the dark. Finding the right footing, precisely mastering the skills and getting to the next place, all depend on how we approach and tackle the problem. The best way to get from where we are, to where we want to be is to find the footing of our next step. When we take the next step, it should support and hold us without a crack.

- (ii) Eye contact is another type of **non-verbal** Communication.
- (iii) Frequent blinking is a sign of the person feeling **distressed or uncomfortable**.
- (iv) One can readily detect **happiness, sadness, anger**.

According to some experts, a staggering 93 percent of our daily communication is non-verbal. Facial expressions are easy to decipher. One can readily detect happiness, sadness, anger. Physicians can tell a patient is doing well (or not) by looking at his/her face.

Eye contact is another type of non-verbal communication, which can tell a lot about the other person. The eyes convey a range of emotions-happiness, sadness, boredom, surprise, confidence even emotional interest. Staring at someone's forehead may intimidate the recipient, staring at the mouth is sometimes interpreted as a sign of emotional interest. In fact staring into someone's eyes is a sign of lying, and so is looking away. In certain cultures, lack of eye contact is taken as a sign of respect.

If body language is to be defined, it is a combination of facial expression, gestures, eye contact, body movements and posture and voice.

Frequent blinking is a sign of the person feeling distressed or uncomfortable. If the pupils are dilated, it often indicates interest, even emotional interest. The lips also reflect our body language, and lip biting indicates worry and or anxiety; tightening of the lips may be an indication of disapproval. Slightly turned up lips indicate happiness and slightly turned down lips indicate sadness.

<https://youtu.be/L5SSSbvP4hM>

If you do not travel,
If you do not read,
If you do not listen to the sounds of life
If you do not appreciate yourself.
You start dying slowly
When you kill your self-esteem;
When you do not let others help you.
You start dying slowly....
If you become a slave of your habits,
Walking everyday on the same paths
If you do not change your routine,
If you do not wear different colours
Or you do not speak to those you don't know.
You start dying slowly

Theme / Central idea

A Teenager's Prayer

Each day brings new beginnings,
Decisions I must make.
I am the only one to choose
The road that I will take.
I can choose to take the road of life,
That leads to great success
Or travel down the darkened road,
That leads to great distress.
Please open up my eyes, dear Lord,
That I might clearly see
Help me stand for what is right,
Bring out the best in me.

Help, Lord, to just say "no"
When temptation comes my way,
That I might keep my body clean
And fit for life each day.
When my teenage years are over,
I know that I will see
That life is lived its very best
With you walking next to me.
