

Frame suitable Interview Questions

You have an environment protection week celebration in your school. You have invited an environmentalist. Your friend interviews him/her about how to save the environment. Frame suitable Interview Questions.

Raviraj: Hi everyone! We have an environmental expert here today to talk about saving the environment. Let's welcome **Mr. Rajesh**. Thanks for joining us.

Mr. Rajesh: Thank you! Happy to be here.

Raviraj: Can you tell us about your experience in protecting the environment?

Mr. Rajesh: Sure! I've worked in environmental conservation for over 10 years, promoting recycling and sustainable energy solutions.

Raviraj: What are the big environmental problems we face globally?

Mr. Rajesh: Climate change and loss of biodiversity are major issues affecting our planet.

Raviraj: How can individuals help every day?

Mr. Rajesh: Simple actions like conserving energy, recycling, using less water, and supporting local and sustainable food choices make a positive impact.

Raviraj: Why is waste management important?

Mr. Rajesh: Waste management minimizes pollution and conserves resources by recycling and composting.

Raviraj: How can we slow down climate change and adapt to its effects?

Mr. Rajesh: We can use energy-efficient appliances, embrace renewable energy, and educate ourselves about climate change.

Raviraj: How can we protect biodiversity?

Mr. Rajesh: We can create wildlife habitats, support local conservation efforts, and promote sustainable agriculture and fishing practices.

Raviraj: How can our food choices help the environment?

Mr. Rajesh: Eating less meat, reducing food waste, and choosing local and organic options can reduce emissions and conserve resources.

Raviraj: How can we educate students about the environment?

Mr. Rajesh: Engage them with hands-on activities, field trips, and encourage student-led initiatives like eco-clubs.

Raviraj: How can technology support environmental sustainability?

Mr. Rajesh: Technology advancements can help us develop sustainable solutions and support renewable energy sources.

Raviraj: Any final message for our students and community?

Mr. Rajesh: Remember, small actions matter. Each one of us can make a difference in protecting our environment.
