Q. 2. (A) Read the following passage and do the activities. (10 marks)

A1. Write whether the following sentences are 'True' or 'False': (2)

(i) To accomplish goals, experts recommend a ten-step approach.

(ii) The champions have to have the skill and the will.

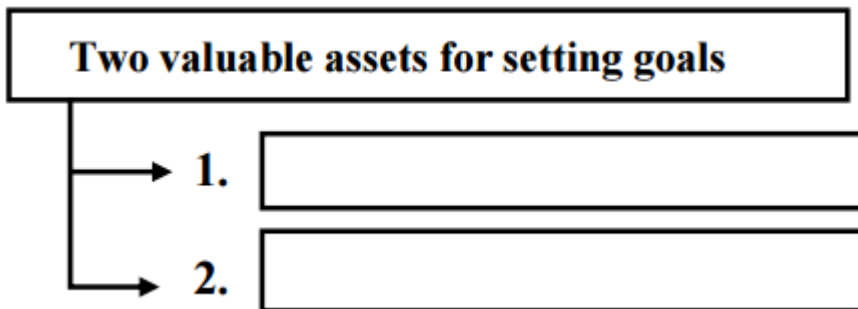

(iii) For anyone, setting goal is not easy but challenging.

(iv) If we do not take action to achieve goals, we shall not achieve goals.

Champions aren't made in gyms. Champions are made from something they have deep inside them - a desire, a dream, a vision. They have to have the skill and the will. But the will must be stronger than the skill. Successful professionals thrive in the same manner. We all have natural talents. If we use that talent to set our goal in life, we can easily get success in life. We shall not achieve our goals if we do not take action to achieve them. Setting goals has two valuable assets - a sense of originality and a stepping stone to illuminate the path. Goals put one at the helm of life; pursuing them acknowledges a better future situation. They help to steer a course of life rather than simply drifting along and letting things happen.

Setting goals may appear easy, but, for some, it is quite challenging. Fear of failure may be avoided in the absence of any goals. After all, one has to decide what one wants to achieve in the end. To accomplish goals, experts recommend a five-step approach.

- (iv) The father and mother of Mary Kom were.....

There had to be one successful story if Indians were to survive in sports and we have that story now. Enough has been said about this great warrior who conquered the world. This warrior is none other than Mary Mangte Kom - the Komqueror and the Komrade. She is famed as a five times World Boxing Champion and the only boxer to win a medal in every one of the six world championships. In the 2012 Olympics, she became the first Indian woman boxer to qualify and win a bronze medal in the 51 kg flyweight category of Boxing.

Kom was born in Kangthei village, Moirang Lamkhai in Churachandpur district of rural Manipur in eastern India. She came from a poor family. Her parents, Mangte Tonpa Kom and Mangte Akham Kom were tenant farmers who worked in jhum fields. Kom grew up in humble surroundings, helping her parents with farm related chores, going to school and learning athletics initially and later boxing simultaneously. Her father was a keen wrestler in his younger age. She had an eager interest in athletics since childhood.

B2. Make a list of achievement of Mary Kom as a boxer. (Any two) (2)

(iii) The time of the day is

(evening/morning)

(iv) Between the woods and the frozen.....is the darkest evening of the year.

Whose woods these are I think I know.
His house is in the village, though;
He will not see me stopping here
To watch his woods fill up with snow.
My little horse must think it queer
To stop without a farmhouse near
Between the woods and frozen lake
The darkest evening of the year.
He gives his harness bells a shake
To ask if there is some mistake.
The only other sound's the sweep
Of easy wind and downy flake.
The woods are lovely, dark and deep,
But I have promises to keep,
And miles to go before I sleep,
And miles to go before I sleep.

A2. Find lines from the extract for the following. (2)

(i) His horse seems anxious to keep going.

(B) Appreciation of the poem: (5 marks)

Read the following poem and write an appreciation of it with the help of the points given below:

The Twins

In form and feature, face and limb,
I grew so like my brother,
That folks got taking me for him,
And each for one another.
It puzzled all our kith and kin,
It reached a fearful pitch;
For one of us was born a twin,
Yet not a soul knew which.
One day, to make the matter worse,
Before our names were fixed,
As we were being washed by nurse,
We got completely mixed;
And thus, you see, by fate's decree,
Or rather nurse's whim,
My brother John got christened me,
And I got christened him.

This fatal likeness even dogged
My footsteps, when at school,
And I was always getting flogged,
For John turned out a fool.
I put this question, fruitlessly,
To everyone I knew,
'What would you do, if you were me,
To prove that you were you?'
Our close resemblance turned the tide
Of my domestic life,
For somehow, my intended bride
Became my brother's wife.
In fact, year after year the same
Absurd mistakes went on,
And when I died, the neighbours came
And buried brother John

Swapnil Patil.

Balaji Nagar,

Omerga 413606.

1st June 2021.

Dear Didi,

How are you? I hope you will be well and good.

Yesterday I saw an advertisement regarding the Tree Plantation Campaign. It impressed me a lot. So I would like to share it with you.

There is a Tree Plantation Campaign happening soon, and I think it's a fantastic way to help our environment.

It's called the Bhumata Tree Plantation Campaign by the Greenhouse Foundation in Solapur. It is going to start on 5th June at private schools, colleges, hospitals, and streets. They want to plant approximately 5 lakh trees in just 5 days, from 10 am to 5 pm.

The best part? They're saying we can celebrate our birthdays by planting trees. Imagine having a tree grow along with you every year, it's pretty cool, right?

Trees do a lot of good things like giving us fresh air, supporting animals, and keeping our environment healthy. By planting trees, we can make a real difference in our area and for the planet.

I think it would be awesome if we joined in. It's a chance to do something good for the world, learn about why trees are important, and be a part of our community.

I'm planning to be there, and I'd love for you to join me. Let's make our neighbourhood

greener and happier together.

Hope to see you there!

Yours loving,

Swapnil.

Subject: Request for School Registration in Bhumata Tree Plantation Campaign

Dear Sir,

I hope you're doing well. Our school, [Your School Name], is excited about joining your Tree Plantation Campaign in Solapur.

We're eager to participate in it. So we need some information about how our school can sign up. Could you let us know the steps we need to follow and any forms we need to fill? We want to make sure we're all set to join in planting the 5 lakh trees.

We love the idea of celebrating birthdays by planting trees. It fits perfectly with our school's goal of teaching students about taking care of our environment.

We're committed to making this campaign successful. Your guidance and support for our school's involvement would mean a lot to us.

Thank you for your time. We're looking forward to being a part of this great initiative.

Sincerely,

Swapnil Patil.

'The Importance of Competitive Examination'.

You: Hey, have you been thinking about competitive exams?

Friend: Yeah, I have. I feel they're pretty important. They open doors to various opportunities and help us to decide our career.

You: Definitely! They not only test our knowledge but also teach us discipline and time management, which are crucial skills for life.

Friend: Plus, competitive exams push us to keep learning and improving. They're like a stepping stone towards achieving our goals and aspirations.

You: Absolutely, they may be challenging, but the experience gained from preparing for and taking these exams is invaluable.

Friend: Agreed. They're like a roadmap, guiding us towards our future and shaping us into more capable individuals.

B2. Drafting a speech:

"The role of science in the progress of the nation"

Respected judges, teachers, and my dear friends.

Imagine a world without science - no smartphones, no medicine, no electricity. We owe a lot to science for making our lives comfy and easy. It's like our superhero, saving time and energy with all its cool inventions.

Think about tomorrow - science is what we need. It keeps on finding new ways to make things better and cooler. But here's the deal: science can be both awesome and scary. It's

like a double-edged sword, bringing good stuff but also things we need to be careful about.

So, let's not just focus on what science can do, but on how we use it. We've got to be responsible with all this power. It's not just about progress; it's about using science for the good of everyone.

Science isn't just about labs and formulas; it's about making life better for all of us. Let's make sure we're using it in ways that help us move forward while keeping the peace. That's the real power of science - making life awesome for everyone.

Thank you!

6. 6. (A) Information Transfer:

A1 or A2. Do any one of the following activities: (5 marks)

A1. Non-verbal to verbal:

Title: "The Variety of Musical Instruments"

Musical instruments come in different types: wind, percussion, and stringed. Wind instruments like the flute and trumpet make music by blowing air into them. Percussion instruments, such as drums, create beats and rhythms. Stringed instruments, like the guitar and violin, produce sound by either plucking or using a bow on strings.

These instruments give musicians lots of ways to create different kinds of music. Whether it's the strong sound of a trumpet or the gentle melodies of a flute, each instrument adds its unique touch to the world of music.

A2. Verbal to Non-verbal:

B1. News Report

Read the following headline and prepare a news report with the given points:

Ten-year child saved a drowning girl

By Staff Reporter.

Wednesday, 23rd October 2023, Solapur:

A ten-year-old boy saved a six-year-old girl who was drowning in river. Yesterday, in Solapur, a 5th std school-going boy was roaming near the river. He saw a small girl aged around 6 years playing near the riverbank.

Suddenly the small girl went into the river to bring back her ball. She went deep inside and was trying to come back but couldn't. In the blink of an eye, she disappeared in the water.

The ten-year-old boy who was watching her just ran towards her without thinking twice. He swam with full force and grabbed the drowning girl. Then he brought the small girl on the bank of the river. Till then the people gathered there and admitted the small girl in the hospital. The ten-year-old became hero in the eyes of all.

B2. Developing a story:

The Thirsty Crow

One hot day, a thirsty crow flew all over the fields looking for water. For a long time, he could not find any. He felt very weak, and almost lost all hope. Suddenly, he saw a water jug below the tree. He flew straight down to see if there was any water inside. Yes, he could see some water inside the jug!

The crow tried to push his head into the jug. Sadly, he found that the neck of the jug was too narrow. Then he tried to push the jug to tilt for the water to flow out, but the jug was too heavy.

The crow thought hard for a while. Then, looking around it, he saw some pebbles. He suddenly had a good idea. He started picking up the pebbles one by one, dropping each into the jug. As more and more pebbles filled the jug, the water level kept rising. Soon it was high enough for the crow to drink. The crow drank water and flew away happily.
