Like most kids of that age, Swami is a kid who cannot stay at one place and **absolutely hates school**, even worse Mathematics. School is his absolute trouble and gets a good beating from his father.

Swami is a talkative little kid and thinks that's his way of facing life, talking himself out of everything. But he does learn the truth the harsh way. This, in fact, was (and in most parts of India, still is) the life of a typical boy growing up. **Technology isn't big in a kid's life**. All they want is to play havoc!!!

In what ways is Swami a typical boy in his growing years? In this regard, Narayan gets deeply into the workings of Swami's ten-year-old mind, explaining exquisitely how he thinks and what his perspective of the world is. They were laughing, clapping and creaming joyously, as if they were in paradise. Hunger and rain did not matter. They were totally drenched and totally happy. I envied their zest for life. 'That scene forced me to look at my own life. I realized I had so many comforts, none of which they had. But they had the most important of all assets, one which I lacked. They knew how to be happy with life as it was. I felt ashamed of myself. I even started to make a list of what I had and what I did not have. I found I had more to be grateful for than most people could imagine. That day, I decided to change my attitude towards life, using the beggar as my role model.' After a long pause, I asked Meena how long it had taken her to change. 'Once this realization dawned', she said, 'it took me almost two years to put the change into effect. Now nothing matters. I am always happy. I find happiness in every small thing, in every situation and in every person.'

Now, I never take change from small vendors and rickshaw drivers because I know what it feels when your father comes home late after a day

of hard work. I value money. I book AC train & flight tickets for my family but myself travel in sleeper and general class whenever possible.
