View or Counter View

View or Counter View:

The view is to agree on a given topic or point. The counter view is to disagree with that same point.

*Tips of View – Counter view Writing:

* Give a suitable and short statement right at the beginning.

*Write the answer in paragraph form, not point-wise.

*Express your opinion argumentatively and firmly. (like a Speech)

*Analyze the pros & cons of the problem separately under views & counterviews.

*Understand the problem (topic)

*Conclude and prove your point.

1. Prepare a paragraph with an appropriate title to be used for the

the counter-view section on the following topic in about 120 words.

View – section: Whats App is a harmful app.

• Wastage of time and energy.

• Adverse effect on routine life.

• Harmful to the studies of students.

• Creates mental stress and strain.

• It is addictive.

WhatsApp is a useful app

Whats App has become an important form of social media. It is the most popular messenger. With this app, we can chat with our family members, friends, and to our colleagues. We can share pictures, videos, the voice messages and can send messages to any part of the world without any charge. So it is not a waste of time and energy. Indeed, it saves valuable time, money, and energy. It is very useful for us in business, education, and in the field of communication. We can do shopping. Urgent tasks can be completed through this valuable app. It is very helpful in times of natural disasters. We can also send compliments to maintain good relations, invitations on special occasions, canvassing moral values through proverbs, saying, etc. If it is used properly with limited time then it plays a very important role in our life without resulting in stress and strain. It is not addictive. Addiction occurs due to our mismanagement of using it.

2. Prepare a paragraph with an appropriate title to be used for the

the counter-view section on the following topic in about 120 words.

View – section: Misuses of mobile phones.

• Mobile Phone Addiction

• Constantly Distracting

• Study loss Due to High Usage

• Mobile Phone Wastage of Time

• If You Lose Your Phone, You Lose Your Life

Uses of Mobile phones

The mobile phone is one of the greatest inventions made by man in the 20th century. It is no longer a portable telephone, it is a mini-computer, a camera, and an organizer. We cannot imagine our life without the mobile phone. It can be used as a source of information. It is the best source of communication nowadays. We can watch movies, and songs and play games on it. It can store a lot of data. Through the internet on their mobile phones, one can easily access different kinds of educational websites. We can capture memorable moments

through mobile phones anywhere and share them with friends and relatives. Mobile phone is also a digital personal assistant that set alarms, and reminders and makes an all-day schedule. Through a mobile phone, one can access his bank's accounts, check his account status, and transfer money to other accounts. Paying bills through mobile phone is an easy task. Of course, we have to use mobile phones with a limit and keep in mind the bad effects of using a mobile phone.
